## **DETAILED ACTION**

### ***Election/Restrictions***

Claims 6-33 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on June 5, 2008.

### ***Claim Objections***

Claims 1-6 are objected to because of the following informalities: The recitation of “characterized by the fact” in line 4 of claim 1 and line 2 of claims 2-5 are objected to as being non-customary U.S. patent language. Appropriate correction is required.

### ***Specification***

The disclosure is objected to because of the following informalities: The specification is missing the customary U.S. patent headings, i.e., “BACKGROUND OF THE INVENTION,” “BRIEF DESCRIPTION OF THE DRAWINGS,” etc.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which

applicant regards as the invention. Claim 3 is rejected as being essentially a functional recitation of the actuation of the spring-loaded valve parts in a non-oscillating manner without reciting the requisite structure allowing the function to be carried out. In addition, “the positive control” in line 2 of claim 3 lacks antecedent basis.

***Allowable Subject Matter***

Claims 1 and 2 are allowed.

Claims 3-5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
